Code Signing.....	46
What is it?	46
Why Use It?	46
How to Use It.....	47
Signing Your Code	49
Write-Progress.....	50
3 Building Scripts.....	53
Introduction	53
How to Begin.....	53
Sample Scenario	53
.NET Requirement Installation	54
Unified Communications Managed API 4.0 Requirement Installation	59
Windows Feature Requirement Installation	59
Completing the Code Section.....	60
Operating System Check	61
Multiple Reboots.....	62
Additional Commentary	62
Top Code Block.....	63
Sample Menu	64
Last Note the Requirements Script.....	66
Script Build Summary.....	66
PowerShell and Change	67
Why does this matter?	67
Conclusion.....	69
4 PowerShell Remoting.....	70
A Brief History	70

Remote PowerShell – HTTP	70
Remote PowerShell – HTTPS.....	71
Invoke-Command.....	74
5 What's New?	79
.....	79
Introduction.....	79
Requirements.....	79
Install OS	79
Active Directory	79
Coexistence.....	79
Desktop Clients.....	80
Increased Hardware Requirements and Limits	80
New Features.....	80
Windows Server Core Support	80
In-Place Upgrade	81
Subscription Model (Hence the name)	81
Features Removed in Exchange SE.....	81
Windows Server Core	82
Windows Server Core Installation	82
Configuring Windows Server Core	84
Remote Management.....	89
Adding a Server-to-Server Management.....	89
Windows Updates.....	91
Operating System Configuration.....	92
Event Log.....	93
Server Power Save	93
Exchange SE Installation	93
Installing Prerequisites.....	94
Install Exchange.....	95
Mailbox Role Installation	95
Edge Transport Role Installation	97
6 Server Configuration	99
Introduction.....	99
Base Installation Requirements.....	99
Configuring the Pagefile.....	100
Starting Point.....	100
Complete Script Block.....	101
Multiple Servers.....	101
Event Log Configuration.....	105

Putting It All Together	137
Windows Defender	139
GAL Segmentation.....	145
Create Address Lists.....	147
Create Global Address List (GAL) and Offline Address Book (OAB)	149
Offline Address Book.....	150
Creating a New Address Book Policy.....	151
Removing Address Book Policy.....	152
Changing Address Book Policy Settings.....	152
7 Server Management.....	153
Introduction	153
Patch Management	153
Start Maintenance	154
Stop Maintenance Mode	156
Starting and Stopping Exchange Services	159
Mailbox Server	159
Start All Exchange Services (Non-Edge)	161
Edge Transport Server.....	163
STOP Services.....	164
START Services.....	164
Database Management.....	165
Unhealthy Databases.....	165
Database Content Indexes	167
Activated Copies	167
Verifying Backups.....	169

Backups, Suspended Copies and Log Files	170
Circular Logging	171
Monitoring Disk Space	172
Managed Availability and Disk Space.....	175
Command Logging	177
Offline Address Book	180
Move-OfflineAddressBook.....	181
Update-OfflineAddressBook	181
Set-OfflineAddressBook.....	181
Database Availability Group - Management Script	182
DAG Create/Remove Script	183
Delete DAG Function.....	185
Availability and Exchange Online	187
Availability Address Space	187
Sharing Policy.....	190
Keeping Up to Date	192
Updates.....	192
Throttled SMTP to Exchange Online.....	194
PowerShell?	195
Search Documents in Exchange Server	197
Removing a Search Document File type.....	200
Unsearchable Items.....	201
Fixing End User Searching	201
8 Mail Flow	203
Introduction	203
Mail Flow Architecture.....	203
Mail Flow Connectors.....	203
Receive Connectors.....	204
Send Connectors.....	206
Removing Connectors.....	207
Connector Reporting.....	207
Hidden Connector(s)	208
Message Tracking Logs.....	210
Configuration	210
Change Message Tracking Log Settings.....	211
Querying Message Tracking Logs	212
Transport Rules.....	214
Accepted Domains.....	216
Postmaster Check	216

Adding Accepted Domains	218
Removing Accepted Domains	218
Remote Domains	219
What is a Remote Domain?	219
New-RemoteDomain.....	222
Set-Remote Domain	222
Remove-RemoteDomain	223
DNS Records and Exchange SE.....	224
Edge Transport Role.....	228
Edge Subscription.....	228
Address Rewriting.....	229
Configuring Anti-Spam Features	231
Protocol Logging	247
Test Cmdlets	250
Test Mailflow.....	250
Test-SmtpConnectivity	251
SMTPDiag	252
Recoverable Items	255
Get-RecoverableItems and Restore-RecoverableItems.....	255
9 Mail Flow - Compliance	260
Introduction	260
Message Hygiene	260
External Controls.....	260
Mailbox Server Agents.....	261
Managing Transport Agents.....	262
Malware Filtering	262
Malware Filter Policies and Rules	266
Malware Filter Rules.....	268
Data Loss Prevention	271
Features of DLP.....	271
DLP PowerShell.....	271
DLP Templates	272
DLP Policies	273
Policy Tips	273
Document Fingerprinting	275
Test Mode.....	281
Journaling	281
PowerShell.....	281
Best Practices (and the PowerShell to configure them.....)	286

Journaling Verification	286
Removing Rules.....	288
Rights Management.....	288
Outlook Protection Rules.....	291
Mobile Protection	292
